Hello,

ORA is requesting an updated budget because of the reduction.

I have attached an updated budget and budget justification please let me know if you approve before submitted to ORA.

Thanks,

Natasha

Hi Natasha,

Please find attached the NoA for the above referenced project for your review. Please let us know if you see anything in the NoA that seems incorrect or if you have concerns with it.

This NoA:

- ☐ Has been awarded and sent to TBS. If a fund code was created by ORA, it is pending your approval.
- ☒ Requires a revised budget from the department because of a reduction. Please return a revised budget in 10 days for a non-PPG project or 60 days for a PPG project. If a budget is not returned in that time frame, ORA will make cuts across each category and you will be required to rebudget at a later time. As a reminder, key effort is expected to be maintained as proposed even if the budget is cut unless prior approval to reduce effort is obtained.
- ☐ Includes restrictions. Please read and share with your PI and let us know if you have any questions.
- ☐ Requires the PI to complete RCC training and cannot be awarded. Please let me know when the training is complete.
- ☐ Requires COI disclosures and cannot be awarded. Please let me know when COI has been completed.

☒ Other: **Award Attestations Outstanding**

*Please note that all DoD projects require IRB/IACUC approval from the DoD as well as Duke. No human/animal work can begin until the DoD has provided written approval to proceed. Please share this with the PI.

Thank you.

Hi Natasha,

Thanks! Although I think there was some confusion in the yearly budgets. Per the NOA:

Year 6: \$10,042 + \$271,958 = \$282,000
Years 7-10: \$270,000

The pcb budget template shows \$282,000 across all 5 years (and has some cruft left over from the wood? lab).

The budget justification reads:

This is a \$2,263,974 grant over five years, with \$282,000 direct costs per year.

But I think it should read:

This is a \$2,186,694 grant over five years with \$282,000 in direct costs for year 6 and \$270,000 in direct costs for years 7 through 10.

Thanks!

Dave

Thanks. Looks good, but there is still some wood lab cruft in the template.
